Plates on the Square opened in 2008 with the mission of bringing a new type of dining experience to Adamson Square and the West Georgia region. Many years later, we are blessed not only to have received the support of our customers but to have learned from them as well. This menu and this business are the results of both our efforts and the taste and feedback of the community. We are grateful for your patronage and welcome any feedback.

Plates would be happy to cater your next function or host your party at our place. Please contact us if we can help or ask your server to speak with a manager.
